**SEERS** is proud to offer the latest technology in hybrid hot water systems, with the world's first ever eco-friendly hybrid technology enabled water heater. The system allows users to enjoy the benefits of hot water powered by an extremely efficient and cost effective 12 Volt DC system.

Our revolutionary technology offers highly efficient heat transfer techniques that can extract energy from ambient air to produce hot water without the need of heating elements, electric booster and hermetic compressor. A 12 Volt DC supply not only saves on power consumption, but is also very safe to use.

Unlike conventional solar system, the SEERS hybrid hot water system. It works day and night regardless of weather changes.

### Special Features :

- No heating element
- No risk of electrocution
- Low power consumption

## COMPARISON

	DC-Heater	Conventional
<b>350</b> Power	350 - 850 watts	3000 watts
<b>12VDC</b> Supply Voltage	12 Volt or 240 Volt	12 Volt or 240 Volt
<b>1.5Amps</b> Amps	1.5 - 3.5	12.5 - 13
Plug Point / Socket	13 Amps	20 Amps
Heating Element	No, with no risk of electrocution	Yes, with high risk of electrocution
Live Parts in Contact with Water	No	Yes
100% Constant of Hot Water Supply	Yes	No
Adjustable Temperature	Yes	No
TEMP & L.E.D Indicator	Yes	No
Patented Technology	Yes	No
Energy Saving Proven by TUV Certified	60% Energy Saving	No

## Main products:

Centralized Hybrid Hot Water System

Recommend to be used in hotel, resorts, medical centres, residential houses ect.

DC - Storage Water Heater

Recommend to be used in condominium, residential houses, apartments ect.

Instant Water Heater

Recommend to be used in kitchen, washing basin, shower room ect.

# WHY LED?

- \* High level of brightness, intensity and reliability
- \* **Save electricity costs about 50%**
- \* Huge maintenance savings
- \* Low voltage and current requirements
- \* **Low radiated heat, NO UV rays, No mercury**
- \* Reduce CO2 emissions about 50%, do not produce harmful substances
- \* No infrared and ultraviolet light, No fading, damage or dangerous problem
- \* **Long lifespan > 50,000 hours**

## 1. ANION LED Bulb

### Features:

- Generates Negative Ions to eliminate smoke,dust, and kill harmful bacteria
- Purify the air and creates clean air environment

### Facts About Negative Ions:

- Approved by the U.S. FDA(Food & Drug Admin.) as an approved allergy treatment
- Ionization is mandatory in many EUROPEAN and RUSSIAN Hospitals
- In Mar 1999, Good Housekeeping Magazine had its engineers test an ironzer by using a smoke test, and found that it cleared out the smoke in a tank
- Scientific proved that negative ions help improve of the following sickness: Asthma, allergies, respiratory problems , migraine headaches, depression, mental performance, and sleep.

The Eye Family

Lycra Family

Noble Family

David Family

Blues Family

Waterdrop Family

## 2. Zoomable LED Focus Spot light

### Features:

- Can focus by controlling the beam angle
- Can rotate 360 degree at any area and angle you prefer easily.

## 3. LED Controllable and dimmable Panel light

### Features:

- Control your home lighting with a single remote
- Remote control within 25 meter
- Use your smart phone to control your home lighting as well
- No more hacking and wiring need

## 4. Emergency LED Bulb and Tube

### Features:

- Can keep on illuminating even without electricity supply
- Battery rechargeable
- Bulb can provide 3 hours of powerful light source
- Tube can provide 5 hours of powerful light source

## 5. Music LED Bulb

### Features:

- LED bulb comes with Bluetooth speaker.
- Smart phone can connect to bulb and you can enjoy favorite music in the living hall/dinning hall or anywhere in your place
- Control the songs selection/volume by your smart phone.
- 10 Meters effective distance

## OUR STRENGTHS

We have teams of **experienced professional** which ensure our works meet customer expectation, especially in **PV System Performance and Timely Delivery!**

- 01** One stop solution from products supply, consultancy, design, system integration, till testing & commissioning.
- 02** Optimized design to realize economical, reliable configuration and maximum system performance.
- 03** Professional & experienced expertise striving to meet customer's expectation
- 04** Customizable solar system to suit small applications and consumer products.
- 05** Supply high quality and reliable products of reasonable price.
- 06** ISPQ certification.
